

22' x 24' x 12'

House Style Instant Garage

Protect Your Investments from Inclement Weather & Sun Damage

MDM Products Instant Garages provide the best in instant, portable protection for any purpose. Typical uses include vehicle protection and storage equipment/material storage. The Peak style unit quickly sheds moisture, rain, or snow for maximum protection of the interior contents. The pre-drilled frame is easily assembled with minimal handtools. Unlike other products, no drilling or field cutting is required. All frame components are made from galvanized steel. Large diameter tube (2-3/8") gives this garage extra strength for snow load.

Main cover and doors are made from long life UV Resistant, Fire Retardant Poly with woven backing. CPAI-84 rated. All fabric components feature heat-welded seam construction. Unit features double zipper doors on **BOTH ENDS** to allow drive-through capability, and good ventilation. Each door contains a pocket for a rigid pole and grommets for securing them up during use. Each unit comes equipped with duckbill earth anchors and drive rod.
