

# 14' x 42' x 15'

## House Style Instant Garage

**Protect Your Investments from Inclement Weather & Sun Damage**

MDM Products 14 x 42 x 15 Buildings provide the best in portable protection for any purpose. Typical uses include RV storage, Boat storage, Tractor, or trailer storage. The house style unit provides extra space along the sides of the enclosure, with maximum height near the center ridge. The pre-drilled frame is easily assembled with minimal handtools. No drilling or field cutting is required. All frame components are made from heavy-duty galvanized steel. Main cover and doors are made from long life UV Resistant, Fire Retardant Polyethylene with woven backing.

All fabric components feature heat-welded seam construction. Unit features double zipper door on **BOTH ENDS** to allow drive-through capability, and good ventilation. Each door contains a pocket for a rigid pole at the base. The long lasting cover is designed with full side flap for run-off of rain or melting snow and diverts water from getting in through the perimeter of the cover. Each unit comes equipped with a set of duckbill earth anchors with a 36" stainless steel tether and drive rod, to secure the unit at each corner, and at every frame arch.
